

AGIERRE SAS
INNOVATIVE SOLUTIONS IN THE HANDLING OF POWDERS

*In answer to the technological development in the field of the handling and dosing of the powders, AGIERRE has improved and realized machineries of high quality with original design, mainly used in the Pharmaceutical and Chemical Industries, such as: **Conveying Systems (Vacuum Conveyors), Fixed and Mobile Lifting Columns Stainless Steel BIN, Empty Big-Bag, Pneumatic Vibrators, Sanitary Butterfly Valves.***

Our products can be customized according to the specific requirements of the Customer. Thanks to the scientific and technological research in addition to the long-lasting experience in this specific field, the Company AGIERRE has projected and manufactured some innovative machines unique for technology and design such as:

- **Vacuum Conveyor** for the handling of powder and the charge of Packaging Machine, Mill, Sieve, Granulators, Dryers, Mixers;
- **Vacuum Conveyor** with *W.I.P. (Was in Place), C.I.P. (Clean in Place) and S.I.P. (Steam in place) Systems;*
- **Vacuum Conveyor** installed on reactors with *PED execution and inertization system;*
- **Gravimetric Vacuum Conveyor** on load Cells for handling and weighting systems;
- **Lifting Colum for BIN;**
- **Fixed Lifting Column for drums;**
- **Mobile Lifting Column;**
- **Glove Box** on Mobile Lifting Column for the charge from drums in sterilized zone.

Thanks to the qualifies and skilled technicians, AGIERRE guarantees a steady support in the choice of the suitable project overseeing each projecting and manufacturing phases enduring with the assistance sales.
