

## **CASONE SPA**

### **PACKAGING FOR PHARMACEUTICAL PRODUCTS**

Casone S.p.A., a leading Company in the packaging field since 1973, manufactures and trades plastic buckets for the Food , Chemical, Pharmaceutical industries and for hospital waste. The wide range of items, from 0,125 up to 60 litres of content (more than 70 models) is particularly suitable for customers who are looking for strong containers, with reinforced walls, stackable in more rows, and handled in difficult conditions (long transportation, high temperature).

The buckets are UN approved for the transportation of dangerous goods.

They have pressure lids and a seal of guarantee for tamper evidence.

The handle can be metal handle or injected handle making easier the disposal or recycling of the packaging.

The buckets are available in a wide range of colours and can be customised the traditional silk-screen, offset and IML labelling.

Casone S.p.A. has always looked for innovative solutions, that during the years permitted to obtain two Italian Awards for Packaging and an European Award for Packaging "Eurostar".

Due to its search for quality and service aimed more and more at its customers requirements, in 1999 the company achieved the accreditation to the International standard ISO 9002, and tree years later the certificate of approval to ISO 9001:9002. All this has been achieved working within safety conditions, updated technology, and complete respect for the environment, as inseparable parts of its professional growth.

Casone S.p.A. places its thirty years experience at the customers complete disposal for the manufacturing of new items and for the analysis of specific technical problems. Moreover it is convinced that the operative flexibility, the interaction and dialogue between manufacturer and customer ensure a positive and lasting synergy.
