### **TIPOSERVICE PROPOSES: FLEXFOLD & VISIOSERVICE**

Tiposervice s.r.l., firm certified ISO 9001 head office in Florence, that has been for 15 years specialized in printing medical and cosmetic leaflets, is honoured in offering innovative solutions reward of permanently and continuous research and competence of its staff. In effect other than the consolidated realization of leaflets even or folded, proposes to its customers solutions as: pre-folded with micro-perforation; MULTIPLO (pre-folded reel); QUADROTTI (leaflets cross folded with adhesive label); FLEXFOLD, the new Tiposervice s.r.l. patent composed of two or more paired leaflets. It can satisfy any request of printing surface, thanking to its flexibility and innumerable combinations. Besides Tiposervice has studied the accurate electronic control system entirely integrated with the working process. Owing to this specific software, studied and born for the inspection of text and all the elements contained into the leaflets; we are able to control the exact combination between: printed material, printed alpha-numeric code, printed bar-code and everything contained into the artwork.

Best service is our primary target. Our mission is: give good service concerning all the needs of pharmaceutical firms in terms of times of deliveries.
